

Regarding Free School Meal Vouchers

Dear Parents/Carers

The first free school meal voucher for £15 per eligible child should have been received by all parents now (to this email address). If you have not yet seen the email yet please look for an email from noreply@edenred.co.uk it may be in your spam/trash folder.

As the application process for the first order was so lengthy due to the government issuing website, Edenred, being inundated and unable to cope with the national surge of applications we have made a decision to send the next voucher for a 4 week period. This means for each eligible child in your family you will receive £60 per child in one lump sum. This will cover the period to 15.05.2020 at which point we will follow advice from the government on how far forward to issue the following batch of vouchers. The next voucher should be with you in the coming days so please look out for it in your inbox.

If you require any support from the voucher company with issues you may be having redeeming your voucher, please contact them via the email address below.

freeschoolmeals@edenred.com
