Space Bandits #1 Review by Markus Brown

This is a new comic out on Wednesday 3rd July, by Netflix and Image Comics.

The story is really good that looks like it will be even better as it goes on. The writer is Mark Millar - he has written multiple comics such as Ultimate Fantastic Four, Ultimate X-Men and Superman Red Son.

The artist of space Bandits is Matteo Scalera, and the colourist is Marcelo Maiolo. The colours are amazing and bring the pictures to life. The art also looks like Ian Gibson's or Cam Kennedy's – two of Sir's favourite artists on 2000AD.
