

## Space Bandits #1 Review

By Charlotte Kendrick

Space Bandits is written by Mark Millar and illustrated by Matteo Scalera. It is being published on the 3<sup>rd</sup> of July. Issue 1 is about 2 women who want revenge on the criminals that betrayed them. They're really smart and cool and I love Cody Blue's hair.

Mark Miller has written other comics like Ultimate X-Men, Ultimate Fantastic Four and Superman: Red Son. Matteo Scalera has also illustrated pictures in other comic's like Indestructible Hulk and Secret Avengers.

Other artists that have similar illustrations are Ian Gibson and Cam Kennedy. The colours in the comic (by Marcelo Maielo) are very vivid and suit the character's personalities.

I rate the lettering a 6/10 since its really small but the whole thing a 9/10. I recommend this to older people, I would like to see more comics with Cody Blue and Thena Khloe.
