

Dear Michael and Amelia,

On Tuesday 14th May 2019, officers were called to attend at Marine Lake in Crosby to reports from a female that her nine year old son had gone missing.

Officers were passed the description of the young boy and patrols were out searching different areas around the lake.

The description of the little boy was passed to yourselves and you were both extremely helpful and keen to help us find him. You both acted quickly and with the information given to yourselves, you managed to locate the young boy who was very upset after getting lost. This meant that he was returned safely to his Mum and two younger brothers and meant that our officers could be informed and sent to other emergency incidents in the Sefton area.

On behalf of Merseyside Police; I would just like to say a massive thank you to you both for your rapid response in assisting us at scene, your kind and caring nature towards the little boy who was clearly very upset and your maturity in dealing with what was a very emotional situation.

Your parents should be very proud of you both.

Thank you!

Kindest Regards,

Constable 5865 QUINN
